

Life Is On

## Announcement

### To: Our Loyal Centeron Customers

We are pleased to announce a new program that will allow existing Centeron customers to upgrade their 3G cellular monitoring devices to 4G/LTE technology.

Effective May 1<sup>st</sup> and until December 31<sup>st</sup>, 2021 we will offer special pricing on our remanufactured line of 4G/LTE Radar, Pressure and Residential Propane monitors. These monitors have the full new product warranty and match performance in every way to our new products.

Special discount pricing will be offered to allow customers to implement early upgrades in advance of the cellular carrier's announced sunset dates for 3G technology. By upgrading early, customers can avoid the potential for data disruption and avoid potential product shortages which may be caused by excessive demand near the carrier-imposed deadlines.

For specific details and pricing please contact your Schneider Electric Centeron representative. Or call 865-981-3100 and enter option 1 to contact sales support.
